The Class of 1980 has dedicated its yearbook to Barbara Spivack for her constant support and guidance throughout our years here. She has given her time unselfishly not only to the class, but also to the yearbook. Without her continuing efforts and hard work, this edition would not have been possible. Therefore, to express our gratitude and appreciation we have made this dedication.

The next thing I know
I'm all worried and
weak
And I feel myself
Starting to crumble

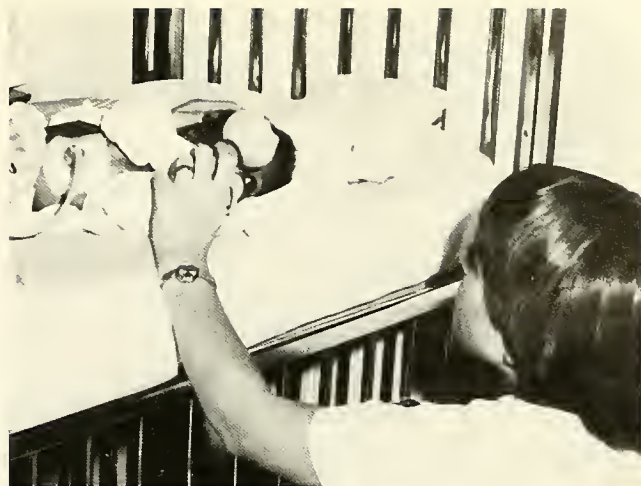

The meanings get lost
And the teachings
get tossed
And you don't know
what you're
Going to do next

The days miss their mark
And the night gets so dark
And some kind of message
Comes through to you
Some kind of message
shoots through
And it says to you . . .

**Love when you can
Cry when you have
To . . .**

**Be who
You must
That's all
Part of the
Plan.**

Your conscience awakes
And you see your mistakes
And you wish someone
Would buy your
confessions

The days miss their mark And the night gets so dark
And some kind of message comes through to you
Some kind of message shoots through And it says to you . . .

Await your arrival
With simple
Survival

And one day
We'll all
Understand

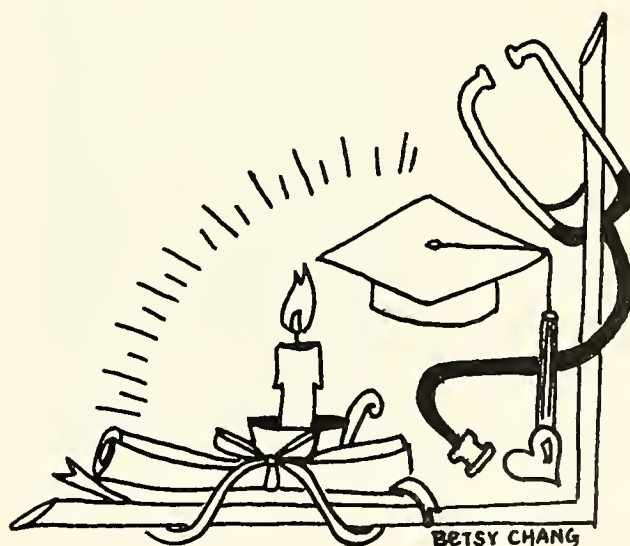

Love when you can
Cry when you have to . . .
Be who you must
That's all part of the plan

Marks From Mercy

Charon Culp: "It is one of the most beautiful compensations of this life that no man can sincerely try to help another without helping himself." (Ralph W. Emerson). Charon and Jean - Colorado 1980*

Ann Jacob: I never thought med-surg would end, But now we've made it to the bend. Through the months we each have grown. Soon we'll be off on our own. I'll never forget the friends I've known and the kindness and loyalty they've shown. Special thanks to Mom and Dad and Bobby for support and a shoulder to cry on. Future plans: Mercy Hospital, 9/13/80 (Mrs. Ann M. Neal). *Janet Smith: "When love and skill work together, expect a masterpiece." (Bustle). Michael, 7/19/80, family, Student Union dorm, Mercy Hospital, fluting, Kentucky, Thursday nights, OB nursing, hot beer at the park, keys in the ladies room, My Bar. *Donna Smith: "Good night, said the nightman. We are programmed to receive you. You can check out any time you like - but you can never leave." (The Eagles). "When the going gets weird, the weird turn professional." (Hunter S. Thompson). Searching for the Great American Dream... *Jan Zeller: "The secret of love is in opening your heart. It's okay to feel afraid, but don't let that stand in your way, 'cause everyone knows that love is the only road. And since we're only here for a while, might as well show some style - give us a smile." (James Taylor). Special thanks to my mom and dad for supporting me through the long two years. *Shelley Schrieber: New friends, new adventures, my family's faith and support, a beginning and an end, parties, 5/29/80, the future, ICU-ER faraway places and new faces, weddings, 4^{AM} care plans, Mercy parties (My Bar, Jr-Sr party), first injections. Nursing is not something you do; it's someone you are. *Connie Selmanoff: Just as we have worked to be good nursing students, so must we now work to be good nurses. *Julian Hostenki: "Today is the tomorrow you worried about yesterday." Reflect! "Friend, I will remember you, think of you, and pray for you: and when another day is through, I'll still be friends with you." Remember! "Today is the first day of the rest of your life." Enjoy! *Burt Kellihan: Michael, my new friendships, 9/6/80, my family's constant support, OB nursing. "May your hands be always busy, May your feet be always swift, May you have a strong foundation when the winds of changes shift, May your heart be always joyful, May your song always be sung, and may you stay forever young." (Bob Dylan). *Jane Harthett: Partying at the Inn, partying at Jells Point, partying at my house... Two years of thinking "I will survive!" *Mandy Scott: Obtaining a BS in nursing shifts one's dynamic equilibrium to a state of chronic stress relative to the health continuum. After assessing resource and demand inputs, incorporating set factors, and progressing in planning and implementing actions to achieve set goals, evaluation indicates that a higher level of functioning will be obtained and validated post graduation... provided a systems regression does not occur. *Jo Ann Davis: The future is full of promise and hope as we impart our care to those we touch. *Margaret Bishop: "To be what we are, and to become what we are capable of becoming is the only end in life." (Spinoza). "Trials never end, of course. Unhappiness and misfortune are bound to occur as long as people live, but there is a feeling now that was not here before, and is not just on the surface of things, but penetrates all the way through: we've won it. It's going to get better now. You can sort of tell these things." (Robert M. Persig). *Mariamne Paszkiewicz: ... Mark, 6/7/80, OR nursing, my family, new friends. "I am only one, but I am one. I can't do everything, but I can do something and what I can do, that I ought to do, and what I ought to do, by the grace of God, I shall do." (Edward E. Rial). *Mary Basit: Time has passed quickly, but not fast enough. I cherish the overt resources (friends) I met, but try hard to block out the overt demands (class, care plans, exams). Wish everyone lots of luck. Remember: Life can't keep you down if

you keep getting back up. Keep smiling! Plan to work a year in med-surg. Hope to move on to ICU or Public Health. Marriage and eight children in the future (Believe that and I'll tell you another one!). *Alex Donato: Nursing school is a challenge which weeds out the women from the girls. Along this stressful path you meet others who are experiencing the same challenges. These "others" become friends—once in a lifetime friends whom you live and grow with... and to all my friends I say thank you, for without you good memories of nursing school could be easily forgotten. *Sue Alford: The fearsome threesome does it again! Tortured minds—bodies beautiful. Partying to survive. Jamie's place, the campus clnx. Wasted days and wasted nights. "Don't worry about it." Back to school in '81? '82?... *Maureen Duck: As with many others, I have been waiting a long time for 1980. Now that it is here my goals must shift to the future. In June I plan to start work on a general surgical floor at George Washington University Hospital in Washington, D.C. Further schooling, at a later date, is also among my plans. I'd like to thank each and every Mercy team member and faculty for their support these last two years. Good luck, all. *John Gehlbach: What is the meaning of human life, or, for that matter, of the life of any creature? To know an answer to this question means to be religious. You ask: Does it make sense, then, to pose this question? I answer: The man who regards his own life and that of his fellow creatures as meaningless is not merely unhappy, but hardly fit for life. (Albert Einstein). "Presume not that I am the thing I was." (Shakespeare). "All things change, and we must change with them." (Goethe). *Theresa Beeson: I like to party, resist tradition with discretion, and take care of most things like "a piece of cake." The good times can be had from the campus clnx... to "stripping paint"! *Lori Edwards: The 7 of us were quite a crew. We pulled together thru and thru, but 10 friends we became. Now sad it will be if it all ends, so, to Donna and Kathy, Mandy and Char, to Carol and Mary. Thanks for the good times we share. Here is a poem to y'all: "When we get bogged down, and upset with all the everyday problems, we don't have the energy left to enjoy the truly important things—such as our friendships. You have made me realize that things are not nearly as devastating as they may appear at the moment. You have given me the power to love." (Susan P. Shultz). *Juriggs Bayer: Nursing school has been tiring, but not defeating, because the Lord is in control; it has been demanding, but bearable, because of my friends. It has been expensive, but possible because of my dear and wonderful parents. It has been time-consuming, but worthwhile because of all these people. It has required unremitting effort and determination. My hope is that we all continue to grow in our profession; that we strive always to be devoted and dedicated nurses, giving our all to promote our patients' comfort without compromising standards. Eventually I'd like to become a nurse-practitioner/midwife-missionary, but whatever the future holds, I desire to "be steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord." (1 Corinthians 15:58).
Additional team members: Madeline Ennis, Mary Fisher, Flo Gibson, Al Holdstein, Regina Kaiser, Pat Majchrzak, Darlene Miller, Jean Roberts, Carol Sovey, and Kathy Hills.

The Mercy Team expresses its appreciation to Mercy faculty who aided them along the long road.

**Nursing. It can mean drying a tear.
Or saving a life.
Aiding the sick.
Or counseling the healthy,
Helping a baby take its first breath.
Or comforting an old man as he
takes his last.
Nursing can mean many things.
But most of all, it means caring.**
